

Tibco Data Catalog Update

The current version of TIBCO Spotfire® Data Catalog is 5.5.0.

If you are running TIBCO Spotfire® Data Catalog 5.2.6, you can upgrade to version 5.5.0. The process of upgrading a production environment Spotfire Data Catalog, which contains data and configurations that you want to migrate, is largely manual. Follow the migration instructions provided by Attivio on the Attivio.
